

INTEGRASPEC[®]

"The User Friendly ICF"

FEATURE PROJECT

Project: Callandra Residence

South Harbor, Savannah, Georgia

Contractor: KAM Contracting Inc.

Savannah, Georgia

ICF Distributor: KAM Contracting

Savannah, Georgia

Designer/Architect: Kevin Kirsch

Savannah, Georgia

Features: Two stories of 6" IntegraSpec[®] wallsystem, slab on grade.

Benefits: This beautiful 4000 ft² home was constructed in a tidal surge flood plain area. The Callandra family wanted a new home to provide protection from hurricane force winds and the associated floodwaters.

"We tell everyone about our amazing energy savings and comfortable humidity level. Mould, mildew, and insects are problems of the past. Our contractor, Mr. Maroney, told us IntegraSpec[®] is a build green product assisting our environment and we now realize that these same features benefit our family."

- Tony Callandra
