

INTEGRASPEC[®]

"The User Friendly ICF"

FEATURE PROJECT

Project: Crnogorac Residence

Fall River, Nova Scotia

ICF Consultant: Kelvin MacPhee

Halifax, Nova Scotia

Designer: Ivan Crnogorac

Fall River, Nova Scotia

Contractor: Three "C" Contractors Ltd.

Lower Sackville, Nova Scotia

Features: This 2500 ft² home includes IntegraSpec[®] wallsystem (slab on grade) with stucco exterior. A radiant floor heating system and oil fired boiler system heat this entire home.

Benefits: The IntegraSpec[®] wallsystem provided fast and "stucco ready" construction. The long term energy efficiency and noise reduction ensure a safe and comfortable home.

"As lifelong commercial contractors, this was our first ICF residential project. IntegraSpec[®] provided fast, accurate construction with very little waste and is truly stucco friendly at a very affordable square foot installed cost."

- Ivan Crnogorac
