

INTEGRASPEC[®]

"The User Friendly ICF"

FEATURE PROJECT

Project: Bill and Sandra Davis
Cement Association of Canada Showcase Home, 2001

Summerside, PEI

Designer: Associated Designers

Oregon, USA

ICF Contractor: West Prince Construction

Alberton, PEI

ICF Distributor: Schurman Concrete

Summerside, PEI

Features: This custom, 2038 ft² ranch style home is equipped with an 800 ft² heated garage and concrete driveway. An eight zone radiant heating system within the concrete floors provides an economical and comfortable heating source.

Benefits: IntegraSpec[®] wallsystem provides quick, one-step construction. The owners are delighted with their quiet, energy efficient, safe new home.

"IntegraSpec[®] is indeed very user friendly. Construction was fast and accurate. IntegraSpec[®]'s installed cost is very affordable. This is our fifth house and our first ICF house, we love it!"

– Bill and Sandra Davis
