

INTEGRASPEC[®]

"The User Friendly ICF"

FEATURE PROJECT

Project: Skanda Vale Monastery – Elephant Barn for Valli

Designer / Contractor: Brothers of Skanda Vale Monastery

Engineer: Ritson Design Services

ICF Installer: Arthur Bland Ecobuild

IntegraSpec Distributor: IntegraSpec UK

Carmarthenshire, West Wales, UK

Carmarthenshire, West Wales, UK

Carmarthenshire, West Wales, UK

Somerset, England, UK

Birmingham, England, UK

Features: 500 m² Elephant Barn, sandpits, waterfall, plunge pool, radiant heated exposed concrete face (ECF) curved walls, thirty feet tall, eight inches thick.

Benefits: Fast, Accurate, Innovative, Sustainable Construction. IntegraSpec ICF system provides Structural Stability, Energy Efficiency, Comfort, and an optimal, one material substrate for modern coatings/renders. IntegraSpec ICF accommodated a very, very unique design and function.

"The IntegraSpec ICF system has been very successful, firstly because it is so quick to erect and secondly because the polystyrene provides good insulation to keep Valli warm during the cold winter months" – Brother Stefan, Skanda Vale Monastery
