

INTEGRASPEC®

"The User Friendly ICF"

FEATURE PROJECT

Project: Webster Residence

Gananoque, Ontario

Contractor: Habitat for Humanity

1000 Islands, Ontario

ICF Distributor: Insulated Concrete Solutions

Kingston, Ontario

Features: This 1100 ft² bungalow features a full 8' finished waterproofed IntegraSpec® lower level. Heat is supplied by a forced air natural gas furnace. The town of Gananoque donated the land and service connections.

Benefits: A modern, energy efficient home with excellent indoor air quality absent of mold and mildew. Volunteer labour was appreciated and contributed in every step of the construction project.

"We wanted our first project to be special. We were impressed by IntegraSpec®'s technology and lack of waste. Our committee wanted an energy efficient, low maintenance structure and IntegraSpec® delivered."

*- Ewart Richardson
Project Coordinator*
