

INTEGRASPEC[®]

"The User Friendly ICF"

FEATURE PROJECT

Project: Petro Canada Gas Bar

New Minas, Nova Scotia

Engineer: Sani Engineering

Burnside Park, Nova Scotia

General Contractor: C-Mac Petroleum

Bedford, Nova Scotia

ICF Supplier: Fraser's Pro Home Centre

Berwick, Nova Scotia

ICF Consultant: Kelvin MacPhee

Lakeview, Nova Scotia

Features: This 2300 ft² gas bar displays IntegraSpec[®]'s innovative use of brick ledge at the top of the walls. Ten foot foundation and upper walls. Steel pan / concrete flooring system.

Benefits: IntegraSpec[®]'s lack of waste, speed, and ease of construction impressed these contractors right away. Lower level is completely comfortable and usable space.

"This was our first ICF project. IntegraSpec[®]'s patented system made every step very straightforward. We look forward to future IntegraSpec[®] projects and highly recommend IntegraSpec[®]."
