

# INTEGRASPEC®

"The User Friendly ICF"

## FEATURE PROJECT

**Project:** Badger's Retreat

**Architect:** Falarc Designs

**General Contractor:** Seven Pines Development Corporation

**ICF Installer:** Comfort Zone Construction

**IntegraSpec Distributor:** Insulated Concrete Solutions

**Buck Lake, Ontario**

**Kingston, Ontario**

**Gananoque, Ontario**

**Sydenham, Ontario**

**Kingston, Ontario**

**Features:** Kingston's First EnviroHome! This 2200 ft<sup>2</sup> home features two levels of IntegraSpec®. Radiant floor heating on both levels delivered with high efficiency propane hot water boiler system. This waterfront home features a heated 4" concrete slab and radiant heated concrete main floor, Century Stone exterior, and beautiful Eurotech windows.

**Benefits:** Badger's Retreat was recognized by the R-2000 EnerQuality Corporation in the Technical Excellence, Overall Design Category, 2002. The homeowners enjoy the cost efficiency and healthy EnviroHome technology of their award winning home.

*"Our clients previously had a new home constructed by a "conventional" homebuilder. They were disappointed with energy efficiency, indoor air quality, and structural stability. We recommended "EnviroHome" standards; radiant heated floors, IntegraSpec® wallsystem, and an upgraded ventilation system. Our clients are now recommending us to everyone and they continually state that their new home is 'affordable luxury'!"*

*- Paul Davis, President*

*Seven Pines Development Corporation*
